Forecast for Saturday 21 Oct 2023

Weather: Cloudy with outbreaks of rain, still persistent and heavy in the early hours, becoming lighter by morning. Much of the rain light and drizzly through the day but a few slightly heavier outbreaks are still possible and hill fog will be extensive.

Chance of cloud-free hill tops above 600m: 10%

Low cloud and visibility: General cloudsheet at 500-600m with some lower patches. Visibility below cloud moderate, but occasionally poor in any heavier rain or drizzle.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

As winds change direction in afternoon this will change which hills are most exposed to low cloud and hill fog. Saturated ground conditions will make for heavy going and some smaller watercourses will be in spate, and access roads could be flooded.

Recent rainfall: measured at Cat & Fiddle: altitude 511m
